

40 COLOURS AVAILABLE IN BOTTLE 400 ML

AMSTERDAM EXPERT

Eye for quality

Working with acrylic colours allows you to experiment endlessly. You create your own reality and take it a step further each time. With limitless possibilities, your passion and talent can grow to their utmost potential!

You expect not only the best of yourself, but also of the materials that you use. That's why there is only one choice: the acrylic colours of the Amsterdam Expert Series. After all, they have been developed by people who are just like you; artistic, skilled and with an eye for quality. And they have made sure: with the Expert Series of Amsterdam you get the best out of yourself.

Inspiring properties

- The paint of the Expert Series is pasty, allowing you to work with it using both a brush and a painting knife
- This acrylic paint contains the highest possible concentration of the purest pigments. This ensures strong and brilliant colours
- The Expert Series comprises a group of colours with authentic, very exclusive pigments
- Many of the colours of the Expert Series are single-pigmented. These colours therefore have a maximum purity. When these single-pigmented colours are mixed they produce a 'pure' mix
- Due to its basis of a 100% acrylic resin the paint has a durable and flexible paint film
- The acrylic colours of the Expert Series have a uniform degree of sheen. You therefore do not get undesired differences in sheen
- The original colour of the paint is maintained for at least 100 years under museum conditions. This is due to the highest degree of lightfastness of the colours (+++)

Exclusive

Those for whom only the best is good enough opt for the exclusive colours of the Expert Series:

- 207 Cadmium yellow lemon
- 208 Cadmium yellow light
- 210 Cadmium yellow deep
- 211 Cadmium orange
- 271 Cadmium yellow medium
- 303 Cadmium red light
- 306 Cadmium red deep
- 314 Cadmium red medium
- 315 Pyrrole red
- 345 Pyrrole red deep
- 511 Cobalt blue
- 668 Oxide of chromium green

Amsterdam All Acrylics

The Expert Series can be combined with all products of Amsterdam All Acrylics; therefore also with the Amsterdam Standard Series as well as all mediums.

EXPLANATION OF THE SYMBOLS

Lightfastness

+++ = the 70 colours of the Expert Series have the highest degree of lightfastness. This means that under museum conditions it is lightfast for at least 100 years!

The lightfastness has been tested according to the ASTM standard D4303.

Opacity and transparency

The Amsterdam Expert Series has both (semi-)transparent and (semi-)opaque colours. The degree of opacity and transparency is indicated by the following symbols:

- = transparent (9 colours)
- ▨ = semi-transparent (14 colours)
- ▩ = semi-opaque (15 colours)
- = opaque (32 colours)

Packaging

- ☰ = 75 ml tube – 70 colours
- ☷ = 150 ml tube – 70 colours
- ☹ = bottle 400 ml – 40 colours

Colour Index

The pigments used in Amsterdam Expert Series have been indicated according to the Colour Index. The Colour Index, which was originally developed in America, is an internationally used system for pigments and dyes that have been used in all types of paint. Each chemical structure has its own number and name which are abbreviated as follows:

PW = pigment white	PY = pigment yellow
PO = pigment orange	PR = pigment red
PB = pigment blue	PV = pigment violet
PG = pigment green	PBr = pigment brown
PBk = pigment black	

WHY NOT ALSO EXPERIMENT WITH ONE OF THE TEN SPECIALTIES OF AMSTERDAM. THIS EXTRA SERIES CONSISTS OF 6 METALLIC AND 4 REFLEX COLOURS THAT GIVE YOUR WORK AN EXTRA DIMENSION.
